

## Angela Chow

Senior Consultant, Department of Epidemiology and Preventive Medicine, Tan Tock Seng Hospital

Clinical Director, Office of Clinical Epidemiology, Analytics, and Knowledge (OCEAN), Tan Tock Seng Hospital

Associate Professor, Lee Kong Chian School of Medicine Singapore, Nanyang Technological University

Adjunct Associate Professor, Saw Swee Hock School of Public Health Singapore, National University of Singapore

### Research Interests:

- Antimicrobial resistance
- Infection prevention and control
- Infectious disease surveillance and epidemiology
- Socio-behavioral and Implementation research
- Population health

Email: [Angela\\_Chow@ttsh.com.sg](mailto:Angela_Chow@ttsh.com.sg)

## Biography

Dr Angela Chow graduated in Medicine from the National University of Singapore, was trained as a Public Health specialist, and obtained a PhD in Epidemiology at the University of California, Los Angeles. Dr Chow had assumed various positions at the Ministry of Health Singapore where she developed national communicable disease surveillance systems and strategies, influenza pandemic preparedness plans, health services development programmes and non-communicable disease interventions.

She is a Senior Consultant at the Department of Epidemiology and Preventive Medicine at the Office of Clinical Epidemiology, Analytics, and Knowledge (OCEAN) and currently the Clinical Director of OCEAN and the Chief Data Officer, at Tan Tock Seng Hospital. She also holds joint and adjunct appointments as Associate Professor at the Lee Kong Chian School of Medicine and Saw Swee Hock School of Public Health respectively. Dr Chow is actively involved with epidemiological surveillance and the prevention and control of healthcare-associated infections and emerging infectious diseases including COVID-19, monkeypox, avian and pandemic influenza. Her research interests include antimicrobial resistance and stewardship; infection prevention and control; infectious disease surveillance and epidemiology, socio-behavioral and implementation research, and population health.

### Notable Research Awards & Grants from Past 5 Years

Name of Awards & Grants	Year Obtained
<b>NMRC Clinician Scientist Award</b> Patient, Physician, and Organizational Factors Influencing Decision-making for Antibiotic Use, and N-of-1 Trials of Interventions to Improve the Decision-making	2019
<b>ALIVE Serious Games Grant (SGG)</b> Antibiotic SteWARDs	2020
<b>One Health Antimicrobial Resistance Research Programme</b> The VALUE of Companion SteWARDs: Understanding the facilitators and barriers to appropriate antibiotic prescribing in veterinary clinics for companion animals in Singapore	2021
<b>NMRC Clinician Scientist Award</b> Different strokes for different folks - Leveraging on community social networks for public health education on antibiotic use and antimicrobial resistance	2023

### Translating Research Into Healthcare
