

## Simon Tan Yong Sheng

Associate Consultant, Department of Anaesthesiology,  
Intensive Care and Pain Medicine, Tan Tock Seng Hospital  
M.D., BMed(Sc), MMed Anaesthesiology

### Research Interests:

- Anaesthesiology
- Regional anaesthesia
- Interventional pain medicine
- Medical technology

Email: [simon.ys.tan@nhghealth.com.sg](mailto:simon.ys.tan@nhghealth.com.sg)

### Biography

Dr Tan is currently an Associate Consultant practicing anaesthesiology and interventional pain medicine. He is also the head of the Acute Pain Service in Tan Tock Seng Hospital. He graduated from medical school in 2015 and completed residency in 2024.

He has a special interest in Medical Technology and has been developing a device for use in regional anaesthesia. The project team was awarded a grant in 2023 and have since developed and patented the device. He is always on the look out for opportunities to develop solutions for various clinical problems encountered.

Apart from innovation, Dr Tan is also active in education. He is involved in training and educating anaesthesiology residents and medical students. He regularly conducts formal teachings for the residents and helps with examination preparation. He was also the Chief Resident of the anaesthesiology residency from 2022 to 2024.
